**Official**

**SUPPLEMENTAL PRELIMINARY RESPONSE**

Prior to the examination of the above application, Applicant respectfully requests confirmation that claims 14 and 35 read as follows:

**IN THE CLAIMS:**

<sup>15</sup>  
~~14~~. (Three Times Amended) A game device which generates images observed from a viewpoint to be displayed on a monitor, the images including a player-controlled object moving relative to virtual terrain objects, the player-controlled object and the terrain objects being defined within a three-dimensional virtual space, the game device comprising:

an input means with which a game player operates a computer game;

shape data memory which stores shape data defining shapes of the terrain objects present in the virtual space;
